SUMMARY

3rd-year **B.Tech Information Technology** student at Vishwakarma Institute of Technology, Pune with a strong interest in **software engineering**, **AI automation systems**, and **data science**. Passionate about developing practical solutions, exploring emerging technologies, and building projects focused on real-world applications. Seeking internship opportunities to **gain industry experience**, **strengthen technical skills**, and grow through hands-on learning and collaborative environments.

CERTIFICATIONS & ONLINE COURSES

GenAI Powered Data Analytics Virtual Experience Program – TATA

[Link](#)

Introduction to Artificial Intelligence – Infosys Springboard

[Link](#)

Python Skill Certification – HackerRank

[Link](#)

SQL (Intermediate) Skill Certification – HackerRank

[Link](#)

Responsive Web Development with HTML and CSS – Infosys Springboard

KEY PROJECTS

Multimodal Deep Learning Framework for Cardiovascular Health Monitoring

- Developed a multimodal deep learning framework integrating ECG, PPG, and SCG signals for continuous cardiovascular monitoring and analysis.
- Utilized **Python**, **PyTorch**, **Transformer architecture**, **ESP32**, **Edge AI**, multimodal signal fusion, IoT-based data acquisition, and real-time ECG, PPG, and SCG signal processing for intelligent cardiovascular monitoring.
- Research work and proposed framework filed for patent publication under **CGPDTM** (Controller General of Patents, Designs & Trade Marks, India).

AI-Powered Smart Email Assistant

- Built an intelligent email automation system capable of email summarization, categorization, smart reply generation, and event extraction using NLP and transformer-based models.
- Leveraged **Python**, **IMAP**, **regular expressions**, and **automation workflows** for email summarization, categorization, and smart reply generation.

PropIntel – AI Property Intelligence Platform

- Engineered a platform matching Indian land records — survey numbers, owner records, court and government data — against risk signals for property due diligence.
- Implemented using **Next.js**, **React**, **TypeScript**, **Prisma**, JWT-based authentication, **Tesseract.js OCR**, and **Leaflet** maps.

AVIRA – AI-Powered Elderly Care Voice Assistant & IoT System

- Co-invented AVIRA, an AI-powered elderly care system integrating multilingual voice interaction, dual-modality emotion recognition, IoT-based smart home automation, emergency SOS, and remote caregiver monitoring into a unified platform.
- Built with **React**, **TypeScript**, **Flask**, **REST APIs**, **OpenCV**, **DistilBERT**, a **Groq LLM** conversational engine, OpenAI TTS (English/Hindi/Marathi), **ESP32** hardware, and a caregiver-monitoring PWA.
- Patent application filed under **CGPDTM** (Controller General of Patents, Designs & Trade Marks, India), Vishwakarma Institute of Technology, Pune.

EDUCATION

Vishwakarma Institute of Technology, Pune – B.Tech in Information Technology

Present

cgpa: 8.3/10, Extracurriculars: Coordinator EPEC (VIT Pune) – Handling event operations and execution responsibilities.

SSVPS's Science College, Dhule – Higher Secondary (HSC Board)

April 2024

Scored 88.67% with focus on Mathematics, Physics, and Electronics.

Chavara Public School, Dhule – Secondary (CBSE Board)

May 2022

Scored 94% in CBSE Board, Played Football district-level.

TECHNICAL SKILLS

- Coding Languages** – Python, C, C++, JavaScript, SQL
- Web Development** – HTML, CSS, Bootstrap
- Databases** – MySQL, MongoDB
- AI / ML** – PyTorch, Transformer Architecture, Natural Language Processing (NLP), Deep Learning
- Core Concepts** – JSON, Data Structures & Algorithms (C), Object Oriented Programming (C++), Database Management System, Operating Systems, Theory of Computation (PDA, Turing Machines), File Handling, I/O.
- Tools & Platforms** – n8n, Git & GitHub, VS Code, Airtable.
